

## J29 MISSION STATEMENT

*"Every healthcare company has a responsibility to leave health and human service programs better than they found them." – Tracy Mills, CEO & Founder*

At J29, our family shares a culture of bringing innovation, delivery, and performance as an employee-focused partner. After spending 18 years in a leadership position at the Department of Defense, I decided to step away and build a foundation for what I saw was missing across the business world - a people-centric, value driven, and quality partner repeatedly going above and beyond. Considering our employees as an extension of my family, I believe in creating a culture of empowering your employees to do great things.

J29 was named from the biblical verse, Jeremiah 29:11. This verse highlights a future of prosperity and hope, which has become the backbone to our vision and mission at J29. In having a people-centric approach, I strive to empower our employees to prosper and have hope in everything we put our effort to. From this mission has come our motto, "Hope for The Future". Our J29 family has continued to stay motivated as our success directly correlates to our philanthropy program. Every month, no less than 10% of our monthly profit goes straight back to local non-profit organizations.

J29 is committed to investing in valuable research and development that is ready to answer your call, even as we prepare to excel for tomorrow's challenges. I am proud to present you with a comprehensive portfolio of our capabilities that J29 has to offer. We look forward to learning more about current challenges and an opportunity to bring "Hope for the Future" to you.

Every Month
